

**DESCRIPTION:** Coil Eye Nuts: Made of cast iron for lifting precast items.

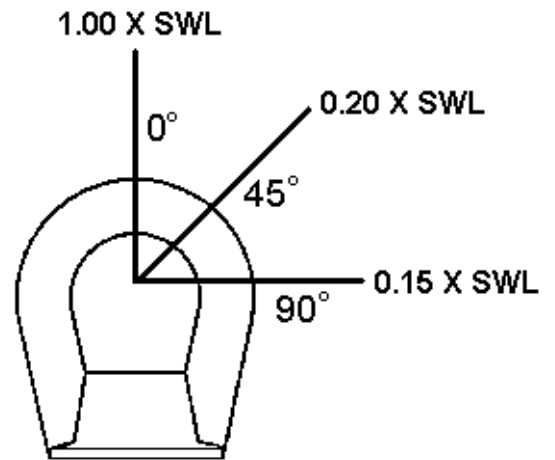

Coil Eye Bolts consist of a coil eye nut, with a piece of coil rod welded inside to provide coil threads to screw into a cast in place coil insert for lifting.

Coil Eye Nuts & Bolts comply with ASTM-A536 and ASTM-A 108.

COIL EYE NUT

BOLT DIAMETER	SAFE WORK LOAD TENSION 5:1
1/2"	2700 LBS.
3/4"	3600 LBS.
1"	7200 LBS.
1-1/4"	10600 LBS.

**SAFETY NOTE:** Safe Working Loads are based on straight tension loading only!  
Lifting with any angle on the lifting chain of cable will greatly affect the Safe Working Load.  
See reference charts for load ratings.
