

SCREED HOOKS

WIRE SCREED HOOK — TECHNICAL DATA SHEET

DESCRIPTION:

Wire Screed Hooks are made from spring steel and fit 2x4 lumber. The unique design allows for use with both flat and round stakes.

APPLICATION:

Wire Screed Hooks are used to keep screed bar or lumber parallel during the flatwork process. This is a low cost alternative to round stake hooks or flat stake hooks. Fits both 3/4" round and flat stakes. Good for wood stakes.
