

C-BRACKETS

TECHNICAL DATA SHEET

DESCRIPTION:

The C-Bracket is made from high-strength steel with a plated cam. C-Brackets are durable and stand up well to typical jobsite conditions, allowing the contractor to reuse the brackets.

APPLICATION:

C-Brackets are intended to be used with 8-1/4" end 3M strength, button-head snapties. Designed for conventional single waler, poured-in-place concrete forms, to hold the double vertical strongbacks in place for formwork alignment.

PRODUCT CODE	WEIGHT	PACKAGED
CBRKT	1.1 LBS. EACH	100 / BOX
2,250 LBS. SAFE WORKING LOAD IS APPROX. BASED ON A 2:1 SAFETY FACTOR
