

COIL EYE BOLTS

TECHNICAL DATA SHEET

DESCRIPTION:

Coil Eye Nuts are made of cast iron for lifting precast items.

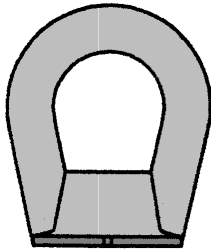

APPLICATION:

Coil Eye Bolts consists of a Coil Eye Nut with a piece of Coil Rod welded inside to provided coil threads to screw into a cast-in-place insert for lifting.

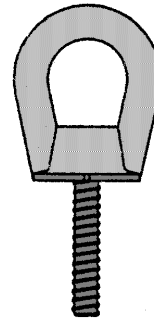

Coil Eye Nuts and Bolts comply with ASTM-A536 and ASTM-A108

SAFETY NOTE:

- Safe Working Loads are approximately based on a straight tension loading only
- Lifting with any angle on the lifting chain of cable will greatly affect the Safe Working Load
- See reference charts for load ratings.
