

# COIL TIES

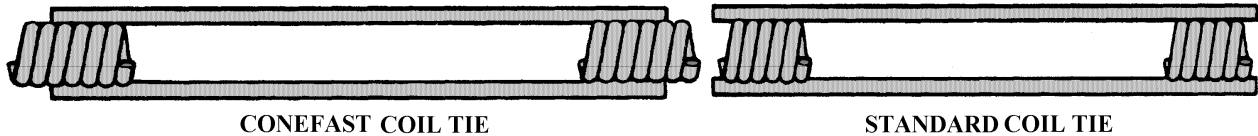

## 2-STRUT — TECHNICAL DATA SHEET

### DESCRIPTION:

2-Strut Coil Ties are designed to take abuse in medium and heavy concrete construction applications. Coil Ties are resistance-welded to provide reliable performance and safety.

### APPLICATION:

2-Strut Coil Ties can be used as a combination tie or form spreader. Cones, waterseals, galvanizing or custom specifications are available on request.

| COIL TIES  |               |        |               |
|--|---------------|--------|---------------|
| TYPE / SIZE  | BOLT DIAMETER | STRUTS | S.W.L. (LBS.) |
| STANDARD 1/2"  | 1/2"          | 2      | 4,500 LBS.    |
| HEAVY DUTY 1/2"  | 1/2"          | 2      | 6,750 LBS.    |
| STANDARD 3/4"  | 3/4"          | 2      | 6,750 LBS.    |
| HEAVY DUTY 3/4"  | 3/4"          | 2      | 9,000 LBS.    |
| STANDARD 1"  | 1"            | 2      | 13,500 LBS.   |
| HEAVY DUTY 1"  | 1"            | 4      | 27,000 LBS.   |
| STANDARD 1-1/4"  | 1-1/4"        | 4      | 37,000 LBS.   |
| S.W.L. APPROX. BASED ON A 2:1 SAFETY FACTOR IN 3,000PSI CONCRETE |               |        |               |
