

# SPEED CLIPS

## TECHNICAL DATA SHEET

### **DESCRIPTION:**

This stamped metal cleat is made for various wall and footing thicknesses and will accommodate 3/4" and 1-1/8" lumber.

### **APPLICATION:**

Speed Clips are used in footing and grade beam forms, as well as poured-in-place concrete wall forming. Speed Clips are used on the bottom and the top of concrete forms and should be spaced in 24" centers. When using Speed Clips for walls over 18", Snapties should also be used to avoid deflection in the form.

**SIZES:** WALL: 6", 8", 10", and 12"  
END: 3/4" or 1-1/8"

**PACKAGED:** 100 PER BOX  
5,000 PER PALLET

**750 LBS. APPROX. SAFE WORKING LOAD  
2:1 SAFETY FACTOR**
