

# C-CLAMP HD

## TECHNICAL DATA SHEET

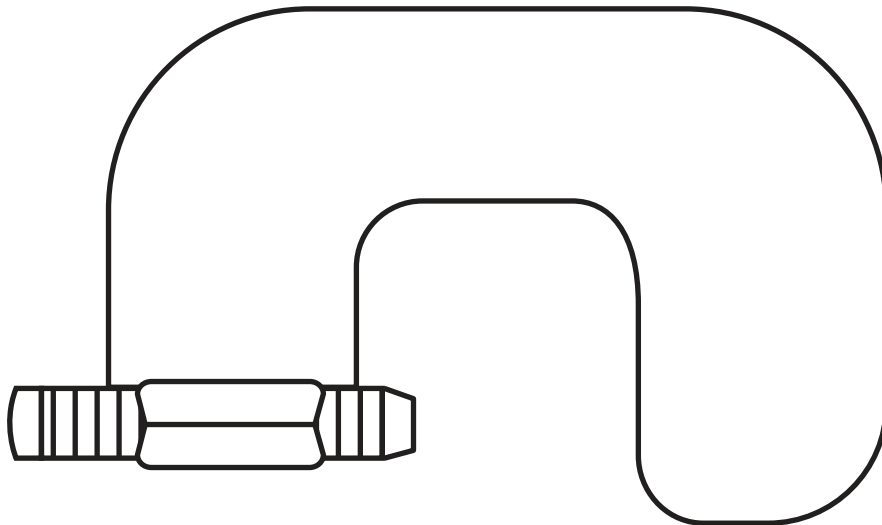

### **DESCRIPTION:**

Our Heavy Duty C-Clamps made from Grade A36 steel with a 5" long cupped-tip bolt with a 3/4"-10 diameter. The bolt has a square head.

### **APPLICATION:**

The C-Clamp is used to hold falsework components during assembly. Typically used to clamp angle iron to the bottom flange of a steel beam.

Our C-Clamps are CALTRANS Falsework Compliant. Please refer to the CALTRANS Falsework Manual section 7-3.06 for compliancy details.

<b>CALTRANS FALSEWORK COMPLIANT (SECTION 7-3.06)</b>
<b>APPROX. BASED ON A 2:1 SAFETY FACTOR</b>
