

SPANDREL PLATE TIE

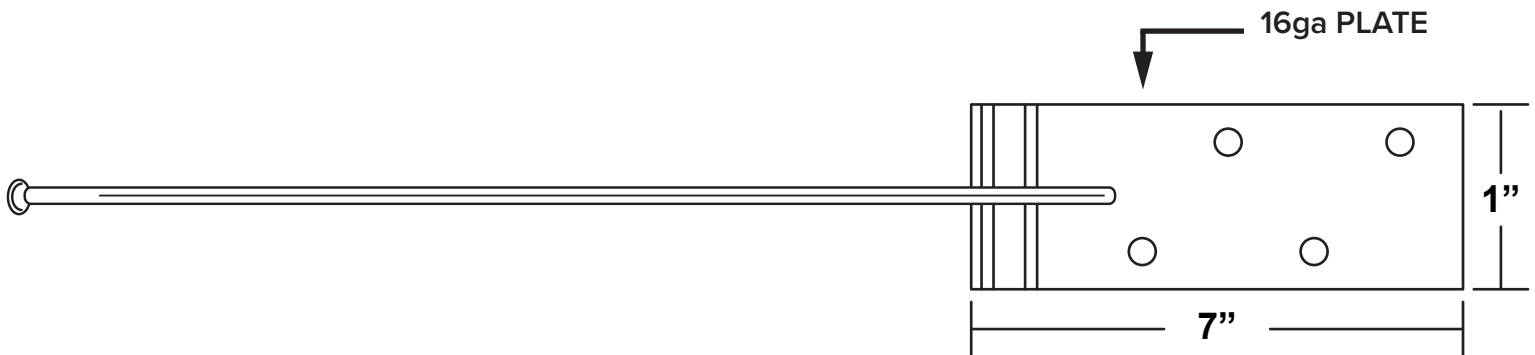

TECHNICAL DATA SHEET

DESCRIPTION:

Spandrel Plate Snapties are made to integrate a nail plate on one end and a standard Snaptie end on the other. Spandrel Plate Snapties are manufactured with a 16ga steel plate with four 1/8" holes.

APPLICATION:

Spandrel Plate Snapties are used to for tying light outside spandrel beam forms. The plate allows the Snaptie to be nailed directly to the deck formwork.
