

SCREED HOOKS

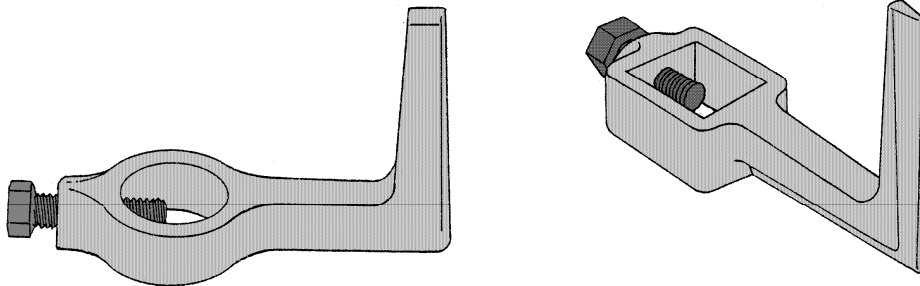

SINGLE SCREED HOOK — TECHNICAL DATA SHEET

DESCRIPTION:

Made from steel, Screed Hooks are equipped with a hole to attach to stakes during the flatwork process. Available in two sizes: 2"x4" or 1/2"x2". Used in conjunction with 3/4" round and square stakes and various screed posts.

APPLICATION:

Screed Hooks are used to keep screed bar or lumber parallel during the flatwork process.
